EXPERIENCE

OCTANET GROUP - SOFTWARE DEVELOPER

INTERNSHIP

DEC - 2023

- Octanet entrusted me with a task as a Java developer, and I successfully accomplished it. Throughout the internship, I acquired valuable skills and extensive knowledge, seizing the opportunity for significant development

MARCELLO TECH - SOFTWARE DEVELOPER

INTERNSHIP

MAR - 2023

- During my internship with Marcello's team, I contributed to the development of an application using XML, Java, and Android Studio. In the role of a Java developer,
- I gained valuable skills and substantial knowledge, seizing the opportunity to enhance my proficiency in software development

PROJECTS

NOV - 2023

ENHANCED USER AUTHENTICATION SYSTEM

- The "Enhanced User Authentication System" is a robust and secure software project designed to provide a reliable means of authenticating users accessing a web-based application.
- Incorporating advanced features, the system is designed to ensure robust user authentication, leveraging industry best practices for heightened security.
- The emphasis on user experience extends beyond security measures, contributing to a reliable and trustworthy authentication process with a positive impact on user satisfaction.
- By prioritizing ease of use and a positive interaction flow, the system aims to significantly impact and elevate the overall satisfaction of users interacting with the authentication process.

CERTIFICATIONS

- Java Full Stack - Besant Technologies Aug - Dec - 2023
- Java Automation Testing and manual testing Oct - 2023
- php -great learning Aug - 2023
- Android App Development -Marcello Technologies Apr-2023
- Android App Development - Accent Techno Soft. Jun - 2022

AWARDS & ACHIEVEMENTS

- Hacker Rank 50+ Solved problems in 2023
- Best library user in 2022.
- Runner of Science execution in 2019
- Certification of NSS Scheme in 2018
